

TECHNICAL AND COMMERCIAL PROPOSAL

Offshore Well Testing Services Package

Submitted by: Apex Well Services LLC | In response to: ITB-2026-DEMO-001 | Date: 28 April 2026

Apex Well Services LLC is pleased to submit its proposal in response to Invitation to Tender ITB-2026-DEMO-001 for offshore well testing services. This is a fictional document prepared to demonstrate tender compliance software.

1. COMPANY PROFILE AND EXPERIENCE

1.1 Company Overview

Apex Well Services LLC has fifteen (15) years of experience in well testing and related services across onshore and offshore projects in the region, operating from bases in three countries with a permanent workforce of 240 personnel.

1.2 Relevant Project Experience

Apex has successfully delivered numerous well testing campaigns for major operators, including recent offshore work in the region. Further project details can be provided on request.

1.3 Financial Standing

Apex Well Services LLC recorded an average annual turnover of USD 26.4 million over the financial years 2023, 2024 and 2025. Audited financial statements for all three years are attached at Appendix 2.

2. CERTIFICATION AND COMPLIANCE

2.1 Management System Certification

Apex holds current certification to ISO 9001:2015 for quality management and ISO 45001:2018 for occupational health and safety management. Certificates are attached at Appendix 3. Apex is currently working towards ISO 14001 certification with an expected audit date in the third quarter of 2026.

2.2 In-Country Value

Apex commits to an in-country value of forty-two percent (42%) of the total contract price, comprising local workforce salaries, locally procured consumables, and subcontracted logistics services. Form E is attached at Appendix 5.

3. HEALTH, SAFETY AND ENVIRONMENT

3.1 HSE Management System

Apex operates a documented HSE management system aligned to ISO 45001, covering risk assessment, permit to work, competency assurance, and incident investigation. A summary of the system manual is attached at Appendix 4.

3.2 Safety Performance

Apex recorded a Total Recordable Incident Rate of 0.71 per 200,000 man-hours averaged across 2023, 2024 and 2025, reflecting two recordable incidents during a period of significant growth in offshore activity.

3.3 Emergency Response

Apex maintains an emergency response plan covering well control, hydrocarbon release, and medical evacuation, and will participate in all Company offshore drills as required.

4. TECHNICAL PROPOSAL

4.1 Well Test Package

Apex will provide a complete surface well test package comprising a test separator, surge tank, choke manifold, and data header, rated for a working pressure of 10,000 psi and certified by an independent third party.

4.2 Separator Capacity

The proposed test separator has a liquid handling capacity of 8,000 barrels per day and a gas handling capacity of 50 million standard cubic feet per day.

4.3 Crew Composition

Each crew will comprise two (2) well test supervisors and four (4) well test operators, all holding current offshore survival and offshore medical certification.

4.4 Data Acquisition

Apex will provide real-time data acquisition at a five (5) second sampling interval, with the complete dataset delivered to the Company within twenty-four (24) hours of the end of each test.

4.5 Mobilisation

Apex will mobilise equipment and personnel to the designated offshore location within twenty-one (21) days of the Company's written call-off notice.

5. COMMERCIAL PROPOSAL

5.1 Pricing

Pricing is submitted on a day-rate basis using the Company's Form B pricing schedule, completed in full and enclosed in the separate commercial envelope. All prices are quoted in United States Dollars.

5.2 Payment Terms

Apex proposes payment of undisputed invoices within thirty (30) days of receipt of a valid invoice, and requests that the Company's forty-five (45) day term be amended accordingly in the final contract.

5.3 Price Validity

Prices are firm and fixed for the first eighteen (18) months of the contract term, after which Apex proposes an annual adjustment linked to a published producer price index.

5.4 Bid Validity

This proposal remains valid and open for acceptance for one hundred and twenty (120) days from the submission deadline stated in the tender.

6. INSURANCE

6.1 Insurance Cover

Apex maintains employer's liability insurance with a limit of USD 10,000,000 per occurrence and third-party liability insurance with a limit of USD 5,000,000 per occurrence. Certificates of insurance are attached at Appendix 6.

7. ENCLOSED FORMS

7.1 Forms Submitted

The following forms are enclosed with this proposal: Form A (Bid Submission Letter), Form B (Pricing Schedule), Form D (Conflict of Interest Declaration), and Form E (In-Country Value Commitment).
